Our Services

Neurological disorders

Our highly trained staff treat patients with the following neurological conditions:

- Multiple Sclerosis
- Parkinson's Disease
- Balance dysfunctions
- High level stroke
- Vestibular disorders
- Concussion management

At every treatment session, our patients spend 45 minutes under the direct, one-on-one care of their Physical Therapist. We created this unique clinical environment to ensure that our patients are getting the time and attention they need to improve their function.
